

## **ROADWAY LIGHT**

## **SERIES GKORLG2**

### **Product Overview**

The GKORLG2 Roadway Light provides uncompromising optical performance and outstanding versatility. Our customer-focused features include single latch toolless entry, industry leading surge protection options and superior lumen performance, all in a modern design. A twist-lock photocell is included with every light for additional energy savings.

### **Key Features**

#### CONSTRUCTION:

- Rugged die-cast aluminum housing.
- Housing has direct contact with the driver to help maintain low temperature.
- Housing is completely sealed against moisture and environmental contaminants.

#### FINISH:

■ The exterior is protected by a rust-resistant powder coat finish that provides superior resistance to weathering and corrosion.

#### OPTICS

- Available in Type II, Type III, and Type IV light distribution.
- Light engines are available in standard 3000K, 3500K, 4000K and 5000K configurations.
- A range of lumen options available from 9,600 to 20,000 Lumens, replaces up to 400W metal halide.
- Impact and UV-resistant polycarbonate lens is precisely designed to give a specific light distribution, maximizing efficiency and application spacing.

#### WARRANTY:

■ 5 Year Limited Warranty.

#### ELECTRICAL:

- Universal 120-277V or 347-480V input voltage.
- 10kV surge protection for 120-277V and 20kV surge protection for 347-480V.
- 1-10V dimming driver(s) as default.
- THD: ≤20%, Power Factor: ≥90%.

#### CONTROLS:

- Included NEMA 3-pin twist-lock photocell for further energy savings (not compatible with multi-level motion sensor).
- Optional multi-level motion sensor BRI823 (not compatible with photocell).

#### INSTALLATION:

- A hinged door enables easy installation by a single person.
- Mounts on standard horizontal tenon 1-5/8" or 2-3/8" O.D.

#### LISTINGS:

- DesignLights Consortium® (DLC) Premium qualified.
- UL listed for wet locations.
- Rated for ambient operating temperature -40°F to 104°F (-40°C to 40°C).

## **Light Distribution**

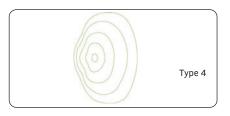

Type 2 optics creates an asymmetric distribution working well in walkway and roadway applications where more light is requires "street side" than "house side".

Type 3 optics produces an asymmetrical pattern that directs the majority of the light forward and equally on both sides of the luminaire. In a back-to-back configuration, it creates a rectangular pattern which can extend pole spacings.

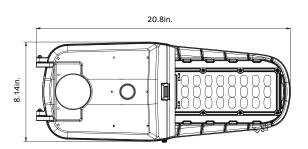

Type 4 is suitable for applications where light is primarily required to be directed forward with minimal backlight. Typical installations include perimeter poles.

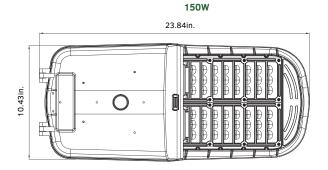

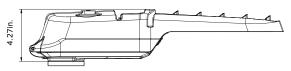

# **Dimensions & Weight**

70W / 105W

Weight: 60W: 5.63lb. 105W: 6.20lb.

## **Accessories**

**TWIST-LOCK PHOTOCELL**Included NEMA 3-pin twist-lock photocell adds dusk to dawn function for additional energy savings.

MULTI-LEVEL MOTION SENSOR
Optional multi-level motion sensor detects occupancy in an area for additional energy savings.
