

Product Overview

The GKORLG2 Roadway Light provides uncompromising optical performance and outstanding versatility. Our customer-focused features include single latch toolless entry, industry leading surge protection options and superior lumen performance, all in a modern design. A twist-lock photocell is included with every light for additional energy savings.

Key Features

CONSTRUCTION:

- Rugged die-cast aluminum housing.
- Housing has direct contact with the driver to help maintain low temperature.
- Housing is completely sealed against moisture and environmental contaminants.

FINISH:

- The exterior is protected by a rust-resistant powder coat finish that provides superior resistance to weathering and corrosion.

OPTICS:

- Available in Type II, Type III, and Type IV light distribution.
- Light engines are available in standard 3000K, 3500K, 4000K and 5000K configurations.
- A range of lumen options available from 9,600 to 20,000 Lumens, replaces up to 400W metal halide.
- Impact and UV-resistant polycarbonate lens is precisely designed to give a specific light distribution, maximizing efficiency and application spacing.

WARRANTY:

- 5 Year Limited Warranty.

ELECTRICAL:

- Universal 120-277V or 347-480V input voltage.
- 10kV surge protection for 120-277V and 20kV surge protection for 347-480V.
- 1-10V dimming driver(s) as default.
- THD: ≤20%, Power Factor: ≥90%.

CONTROLS:

- Included NEMA 3-pin twist-lock photocell for further energy savings (not compatible with multi-level motion sensor).
- Optional multi-level motion sensor - BRI823 (not compatible with photocell).

INSTALLATION:

- A hinged door enables easy installation by a single person.
- Mounts on standard horizontal tenons ranging from 1-5/8" to 2-3/8" O.D.

LISTINGS:

- DesignLights Consortium® (DLC) Premium qualified.
- UL listed for wet locations.
- Rated for ambient operating temperature -40°F to 104°F (-40°C to 40°C).

Light Distribution

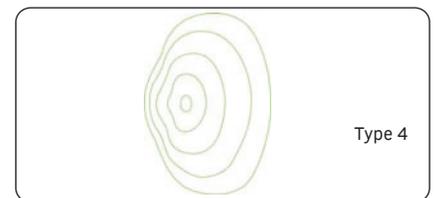

Type 2 optics creates an asymmetric distribution working well in walkway and roadway applications where more light is required "street side" than "house side".

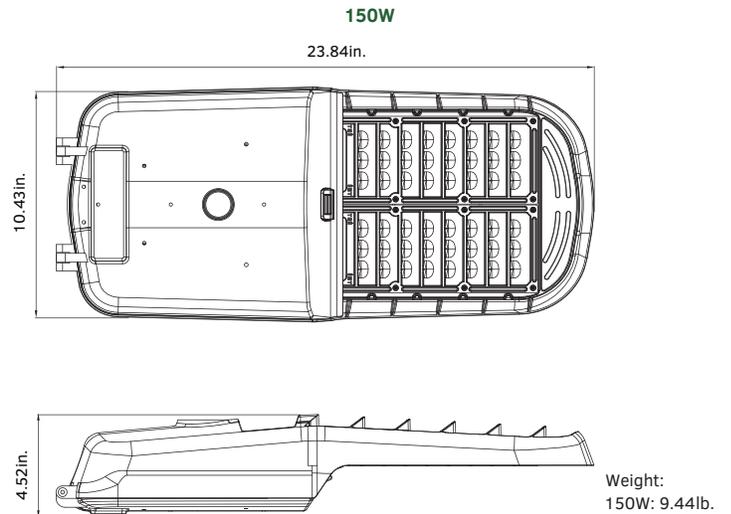

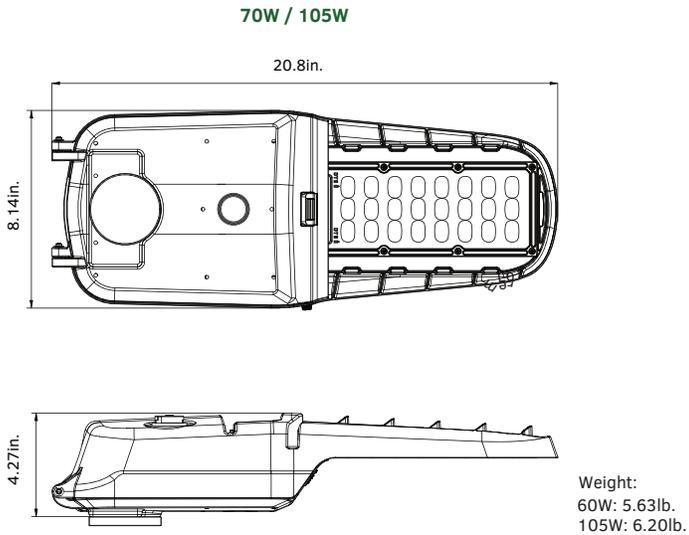

Type 3 optics produces an asymmetrical pattern that directs the majority of the light forward and equally on both sides of the luminaire. In a back-to-back configuration, it creates a rectangular pattern which can extend pole spacings.

Type 4 is suitable for applications where light is primarily required to be directed forward with minimal backlight. Typical installations include perimeter poles.

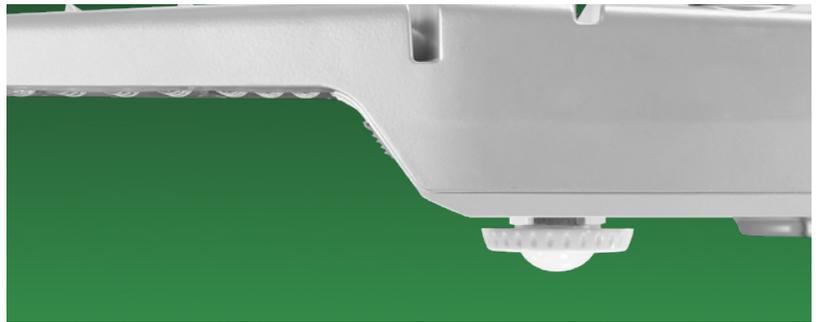

Dimensions & Weight

Accessories

TWIST-LOCK PHOTOCELL
Included NEMA 3-pin twist-lock photocell adds dusk to dawn function for additional energy savings.

MULTI-LEVEL MOTION SENSOR
Optional multi-level motion sensor detects occupancy in an area for additional energy savings.

Ordering Information

Roadway Light Series GKORLG2

Example: GKORLG2105W27VXXKYYYYY

Fixture Type	Wattage	Voltage	CCT	Finish	Photocell	Sensor (Optional)	Photometry	Power Adjustable (Optional)	Internal Code
GKORLG2	70W	27V 120-277V	30K 3000K	SG Silver Grey*	P0 With Photocell	M With Motion Sensor	T2 Type II	AD Power Adjustable	Blank
